Investments in Indian securities within India Focus Fund are made partly via a wholly-owned Mauritian subsidiary, FIL Investments (Mauritius) Limited (the "Subsidiary"), previously called Fid Funds (Mauritius) Limited. The sole object of the Subsidiary is to carry out investment activities on behalf of the Company. FIL Investment Management (Singapore) Limited ("FIMSL") provides investment advisory and management services to the Subsidiary.FIMSL has obtained approval from the Securities and Exchange Board of India and the Reserve Bank of India to invest in India on its own behalf and on behalf of approved client accounts as a Foreign Portfolio Investor under Indian law. The Subsidiary is registered as a Foreign Portfolio Investor sub-account of FIMSL's licence and has been granted approval to invest in Indian securities. The assets and liabilities of the Subsidiary are consolidated in the Statement of Net Assets and all investments held by the Subsidiary are disclosed in the Schedule of Investments.

On 5 May 2021, Global Multi Asset Tactical Moderate Fund was renamed Global Multi Asset Growth & Income Fund.

On 17 May 2021, Global Multi Asset Tactical Defensive Fund was renamed Global Multi Asset Defensive Fund and changed its reporting currency from USD to EUR.

Following the rebase the below share classes changed their characteristics: AEON E-ACC Shares (GBP) (GBP/USD hedged) -AEON E-ACC Shares (GBP) (GBP/EUR hedged): Changed from USD to EUR hedged. Vemoegens. Def A Shares (EUR) (EUR/USD hedged) and Vermoegens. Def A Shares (EUR): Shares class becoming unhedged. Y-ACC Shares (GBP) (GBP/USD hedged) - Y-ACC Shares (GBP) (GBP/EUR hedged): Changed from USD to EUR hedged.

On 28 October 2021, Multi Asset Income Fund was renamed Sustainable Multi Asset Income Fund and Euro Blue Chip Fund was renamed Sustainable Europe Equity Fund.

2. Significant Accounting Policies

The financial statements are prepared in accordance with the Luxembourg legal and regulatory requirements relating to undertakings for collective investment.

Calculation of the Net Asset Value. The Net Asset Value per share of each class of shares, is calculated by determining first the proportion of the net assets of the relevant sub-fund attributable to each class of shares. Each such amount will be divided by the number of shares of the relevant class outstanding as at close of business to the extent feasible. The Net Asset Value of each class is determined in the principal dealing currency of the respective class.

Security Valuation. Investments in financial instruments traded on any stock exchange are valued at the last available price at the time when the valuation is carried out on the principal stock exchange on which such security is traded. Financial instruments dealt on any over the counter market, short-dated debt transferable securities and money market instruments not traded on a regulated exchange or market are valued at the last available price at the time when the valuation is carried out. For Cash Funds, Money Market Instruments are valued at Mark-to-Market or Mark-to-Model where the use of mark-to-market is not possible or the market data is not of sufficient quality. All other assets are valued with prudence and in good faith by the Directors of the Company on the basis of their reasonably foreseeable sales price. All holdings owned by the Company are quoted on a regulated market, except where otherwise distinguished in a sub-fund's Schedule of Investments.

Price Adjustment Policy. The Board implemented a price adjustment policy in order to protect the interests of the Company's Shareholders. The purpose of the price adjustment policy is to allocate the costs associated with large inflows and outflows to investors transacting that day, thereby protecting the long-term Shareholder from the worst effects of dilution. It achieves this purpose by adjusting the share class price at which deals in a sub-fund are transacted. As such, share class prices may be adjusted up or down depending on the level and type of investor transactions on a particular day within a sub-fund. In this way the existing and remaining Shareholders do not suffer an inappropriate level of dilution. The Company will only trigger an adjustment in the price when there are significant net flows likely to have a material impact on the remaining Shareholders. The adjustment will be based on the normal dealing costs for the particular assets in which a sub-fund is invested but will not exceed 2% of the price. The Board may decide to increase this adjustment limit in exceptional circumstances to protect Shareholders' interests. With effect from 20 March 2020, the Board decided to temporarily revise the current Swing Pricing policy of the Company in line with the provisions of the Company's prospectus and lift the price adjustment limit of 2% on a temporary basis. Once an adjustment is made to a share class price, that price is the official price for that share class for all deals that day. The price adjustment policy applies to all sub-funds during the period with exception of cash funds, Greater China Fund II and Asian Equity Fund. Price adjustments were made during the period, but as at 31 October 2021, no price adjustment was made on the sub-funds.

Fair Value Adjustments Policy. Fair value adjustments may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly if a sub-fund invests in markets that are closed for business at the time the sub-fund is valued, the Directors may, by derogation from the provisions above under security valuation, allow for the financial instruments included in a particular portfolio to be adjusted to reflect more accurately the fair value of the sub-fund's investments at the point of valuation.

Bank Deposits and Cash at Banks and Brokers. All bank deposits and cash at bank and brokers amounts are carried at face value.

Investment Security Transactions. Investment security transactions are accounted for on the date securities are purchased or sold. The computation of the cost of sales of securities is made on the basis of average cost.

Futures. Futures are accounted for on the date of opening or closing of the contract. Subsequent payments are made or received by the sub-fund each day, dependent on the daily fluctuations in the value of the underlying index or security which are recorded for financial reporting purposes as unrealised gains or losses by the sub-fund. The unrealised gains or losses resulting from futures are included in the Statement of Net Assets and in the Schedule of Investments. The realised gains and losses are based on the First In — First Out method.

Forward Foreign Exchange Contracts. Forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from forward foreign exchange contracts are included in the Statement of Net Assets and in the Schedule of Investments. All forwards, including those used for the hedging of share classes, are included in the Schedule of Investments.

Option Contracts. Options purchased are recorded as investments at their realisable market value; options written or sold are recorded as liabilities based on the cost to close the position. Purchased and written options are included in the Statement of Net Assets and in the Schedule of Investments. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

Interest Rate, Overnight Index & Total Return Swaps. Interest receivable and payable on interest rate, overnight index and total return swap contracts is accrued on a daily basis, and future commitments under the swap are valued at market rates. Interest rate, overnight index and total return swap contracts are disclosed in the Statement of Net Assets and in the Schedule of Investments.

Credit Default Swaps. Premiums paid and received on credit default swap contracts to buy or sell protection against a credit event are accrued on a daily basis and reflected as net income. Future commitments under the swap are valued at market rates. Credit default swap contracts are disclosed in the Statement of Net Assets and the Schedule of Investments.

Contracts for Difference. Contracts for difference are contracts entered into between a broker and the Company under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. When a contract is closed, the Company records a realised gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The valuation of contracts for difference is based on the underlying security and they are disclosed in the Statement of Net Assets and the Schedule of Investments.

Equity Linked Notes. Equity Linked Notes are valued daily based on the price of the underlying security and are disclosed in the Statement of Net Assets and the Schedule of Investments at market value. The intermediate coupon(s) and final payment at maturity are determined by the change in value of the underlying security.

Foreign Exchange. The Directors determine the designated currency of each sub-fund. Assets and liabilities as at 31 October 2021 have been translated at the prevailing exchange rates on that date. All transactions denominated in foreign currencies during the period are translated into the subfund's designated currency at the exchange rate prevailing on the day of transaction.

Bonds in Escrow. Bonds included in the Schedule of Investments can be used as collateral against open derivative exposures. Where this is the case, bonds will be escrowed to prevent them from being traded.

Sub-fund name	Security description	Denominated quantity in escrow

Fund share Transactions. The issue and redemption price per share of each sub-fund is the Net Asset Value per share on the date of trade, subject to the price adjustment policy.

Formation Costs. All formation costs related to the launch of the Company have been amortised. Costs incurred in launching new sub-funds will be charged to current operating expenses.

Income. Dividends on equities are recognised when the security is quoted ex-dividend. Interest is accounted for on an accruals basis.

Zero Coupon Disclosure. Zero coupon bonds and zero coupon money market instruments are disclosed in the Schedule of Investments at a rate reflecting the actual return.

Combined Accounts. The combined financial statements have been presented in USD which is the Company's designated currency and represent the total financial statements of the different sub-funds. Sub-funds stated in currencies other than USD have been converted at exchange rates ruling at the period-end.

3. Co-Management of Assets

For the purpose of effective management, where the investment policies of the sub-funds so permit, the Board of Directors may choose to co-manage assets of certain sub-funds within the Fidelity Funds range. In such cases, assets of different sub-funds will be managed in common. Fractions may result from the co-management technique. The value of these fractions is based on the market value of the underlying financial instruments in the portfolio of the co-managed sub-funds at the end of the year and is included in the total market value of the portfolio. Considering the insignificance of these amounts, they have been included as "Fractions" in the Schedule of Investments.

4. Investment Management Fees and Other Transactions with the Investment Manager or its Affiliates

Pursuant to the Investment Management Agreement dated 1 June 2012, FIL Fund Management Limited ("FFML") is entitled to a monthly investment management fee and asset allocation fee, accrued daily and based on the average Total Net Assets of each sub-fund, at annual rates disclosed in the table below:

During the period ended 31 October 2021, the sub-funds invested in the following fund shares: Fidelity ILF - The Sterling Fund - A-ACC-GBP, Fidelity ILF - The US Dollar Fund - A-ACC-USD and Fidelity ILF - The Euro Fund - A-ACC-EUR which have their management fees capped at 0.25% per annum.

Performance Fees

The Investment Manager is entitled to receive an annual performance fee, which is calculated in relation to the net assets of classes of Shares of funds that have cash indices as Market Indices, and which is subject to a high water mark adjusted for the return of the relevant Market Index. The use of a High Water Mark is appropriate in a performance fee methodology for a class of Shares of a fund that seeks to achieve an absolute return annually. The use of a High Water Mark seeks to ensure that investors will not be charged a performance fee until any previous losses are recovered. There is no mechanism to lower the High Water Mark.

The basis for calculation of performance fees is fully explained in the Prospectus that all investors should read before investing. The relevant performance fee rates, hurdle rates and comparative indices for each sub-fund are as follows:

Sub-fund name	Performance fee	Hurdle rate	Comparative Index
Absolute Return Asian Equity Fund	15%	N/A	Secured Overnight Financing Rate
Absolute Return Global Equity Fund	15%	N/A	Secured Overnight Financing Rate
Absolute Return Multi Strategy Fund	10%	N/A	Secured Overnight Financing Rate

From 2 August 2021, the comparative index for Absolute Return Asian Equity fund and Absolute Return Multi Strategy Fund has changed from USD Overnight LIBOR to Secured Overnight Financing Rate.

During the period ended 31 October 2021, USD 45 performance fees was paid by the Absolute Return Global Equity Fund.

Others

Class C Shares are subject to an annual distribution fee of up to 1.00% of the Net Asset Value of the relevant class. Class D shares are subject to an annual distribution fee of up to 0.50% of the Net Asset Value of the relevant class. Class E shares are subject to an annual distribution fee of up to 0.75% of the Net Asset Value of the relevant class. These fees are accrued daily and payable quarterly to FIL Distributors. The Reserved Funds' classes of shares may only be acquired by investors who are either Undertakings for Collective Investment or investors whose assets are held in accounts managed by FIL or its affiliates. Expenses and charges, excluding investment management fees, administration expenses, government taxes and custodian fees for such classes of shares, will be charged to, and paid directly by, FIL and its affiliates. The investment management fees, administration expenses, government taxes and custodian fees for such classes of shares are charged to the sub-funds but are reimbursed in full by FIL and its affiliates.

FIL and its affiliates may waive any or all of their fees and limit the maximum level of expenses (with certain exceptions) that the sub-funds would be paying. These waivers are voluntary and may be revised at any time. In addition, FFML may from time to time bear certain expenses of the sub-funds, on a discretionary basis. Certain officers and directors of the Company are also directors, officers or employees of FIL or its affiliates.

5. Variable Management Fees

The Variable Management Fee ("VMF") comprises of a set base fee (the "Base Fee") of 0.70% and a positive or negative variable element of up to 0.20%, which is calculated daily to the nearest 0.01%. The variable element of the VMF is calculated based on the performance of each Share of the relevant Share class relative to that of its Market Index over the same period.

The period used to assess the performance of a Variable Share Class and Market Index is the lesser of: (i) the time since launch of the Share Class; or (ii) the previous 3 years (the "Performance Period"). The difference between the value (inclusive of income distributions previously paid out) at the beginning of Performance Period compared to the value (inclusive of income distributions previously paid out) at the end of the Performance Period for each of the relevant Variable Share Class and the Market Index form the basis of the calculation of the variable element of the VMF.

Share Class Name	Market Index	Base Fee	Minimum VMF	Maximum VMF
Fidelity Funds - America Fund Y-VMF-ACC-Euro	S&P 500 Index (Net)	0.7	0.5	0.9

6. Securities Lending

As at 31 October 2021, the Company lent securities having a value of USD 1,150,610,389 and received collateral with a market value of USD 1,276,544,384. During the period ended 31 October 2021, the Company paid USD 1,282,561 to the Custodian in relation to the securities lent. With respect to securities lending transactions, the Company will generally require the borrower to post collateral representing, at any time during the lifetime of the agreement, at least 105% of the total value of the securities lent. The following table discloses the breakdown of the total value of securities on loan, by sub-fund, as at 31 October 2021:

Sub-fund name	Currency	Maturity Tenor	Securities Values	% of Lendable Assets	% of AUM

The following table discloses the breakdown of the total value of securities on loan by counterparty and the total collateral market value by counterparty as at 31 October 2021:

Counterparty	Total Value USD	Collateral Market Value USD	Country	Clearing Type
Goldman Sachs	431,181,264	493,854,139	United Kingdom	Bilateral
Societe Generale	171,388,658	180,092,899	France	Bilateral
UBS	162,443,299	174,088,014	United Kingdom	Bilateral
BNP Paribas	142,687,213	155,916,492	France	Bilateral
J.P Morgan	103,469,864	116,975,818	United Kingdom	Bilateral
Merrill Lynch	78,884,903	83,209,285	United Kingdom	Bilateral
Morgan Stanley	52,251,176	63,578,851	United Kingdom	Bilateral
HSBC	8,304,012	8,828,886	United Kingdom	Bilateral

The collateral which consists of government bonds is held by the Custodian and is not reflected in the financial statements. The collateral has not been reused. There are no restrictions on the reuse of collateral. As at 31 October 2021, the analysis of collateral received on securities lending was as follows:

Collateral Type	Total Value USD	Collateral Quality	Maturity Tenor of Collateral	Collateral Currency
Government Bond	430,076,839	Aa2	Above 1 Year	EUR
Government Bond	414,036,694	Aa3	Above 1 Year	GBP
Government Bond	219,651,878	Aaa	Above 1 Year	EUR
Government Bond	212,778,973	Aaa	Above 1 Year	USD

The total income from securities lending is split between the sub-fund and the securities lending agent. The sub-funds receives 87.5% while the securities lending agent receives 12.5% of the income.

The analysis of income on securities lending for the period was as follows:

Sub-fund name	Currency	Gross Income	Operational Cost	Net Income

7. Taxation

The Company is not liable to any Luxembourg taxes on income or on realised or unrealised capital gains, nor to any Luxembourg withholding tax. The sub-funds are subject to an annual subscription tax of 0.05% on Equity, Equity Income, Asset Allocation, Multi Asset, SMART, Bond, Fixed-Term Bond, Fidelity Lifestyle Funds and Institutional Reserved Funds Class Y Shares, 0.01% on Cash, Reserved, Class P, R, X and I Shares, and 0.00% on Index tracker Funds, calculated and payable quarterly on the Net Assets of the sub-fund on the last day of each calendar quarter.

Foreign capital gains, dividends and interest may be subject to capital gain and withholding taxes or other taxes imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders. Where there is a reasonable likelihood that a liability will crystallise, the tax payable on the unrealised gain is provided for in the NAV.

8. For UK residents only

The affairs of the Company have been conducted to ensure as far as possible that United Kingdom Reporting Fund Status will be granted for the period of these accounts with respect to the sub-funds and Share classes that are registered in the United Kingdom. With respect to UK registered sub-funds and Share classes in existence prior to the introduction of the new regime the Company has applied to the UK Inland Revenue to transition into the new regime and the UK authorities have given notice that they accept this entry. Moreover, the Company has submitted an application for the new regime for UK registered sub-funds and Share classes launched during the accounting period ending 31 October 2021. It also submitted or will submit an application for new Share classes in existing or new UK registered sub-funds launched during the accounting period. Reportable income figures are generally available six months after the year end date. The distributing subfunds and Share classes of the Company that were registered in the UK at the time have also been certified as "distributing funds" by the UK Inland Revenue authorities under the predecessor regime for all accounting periods up to 30 April 2010.

9. Equalization

Income equalisation arrangements are applied to all share classes (accumulating and distributing), across all sub-funds. For distributing shares, these arrangements are intended to ensure that the income per Share which is distributed in respect of a distribution period is not affected by changes in the number of Shares in issue during that period. The calculation of equalisation is based on net investment income.

10. Dividend Payments

The following dividend payments were made during the period ended 31 October 2021:

Sub-fund name	Div per Share	Ex-div date

15. COVID-19 Pandemic

As referenced in the Introduction, due to the COVID-19 outbreak, the FIL Group business contingency plans have been activated gradually across all FIL Group locations from January 2020. All controls remain unchanged and continue to run. The Fund has continued to operate as required and in accordance with its investment policies and the Prospectus. No significant operational or performance issues or systems outage have been identified to the date of the approval of these accounts. Pro-active steps are being and continue to be taken to ensure continuity of service despite this exceptional period of market and operational stress.

Fidelity International (including FIMLUX) has been in a heightened phase of liquidity and counterparty monitoring across the Fund's portfolios. Market and transaction data relevant to any and each sub-fund of Fidelity Funds have been considered and analysed on a more frequent basis during this period in order to ensure the calculation of accurate NAVs that are fully representative of prevailing market conditions and to consider potential areas of concern and whether it would be in the best interests of Shareholders of the Fund to invoke additional liquidity management measures. It has not been necessary to suspend the calculation of the NAV of any of the sub-funds and there has been no instance of late publication of the NAV during the period. The published unaudited NAVs and other financial information are available on Fundsquare, at www.fidelity.lu or upon request at the registered office of the Fund. There were no limitations to redemptions during the period, and no redemptions were put on hold.

As disclosed under note 2, Significant Accounting Policies, changes to the price adjustment policy were approved in response to the exceptional market situation, as notified to Shareholders via publication on Fidelity's website. It was resolved to adjust the swing pricing threshold on a temporary basis for all sub-funds with effect from 10 March 2020. On 20 March 2020, it was resolved that the swing price adjustment cap (or swing factor) applied to the Fund be lifted, also on a temporary basis. These changes to the swing pricing policy remain under ongoing review and will remain in place until such time as market conditions stabilise and as approved by the Board. A copy of the Shareholder publication can be found at www.fidelity.lu.

16. Claims for Discriminatory Withholding Taxes within the European Union

Investment funds are generally subject to local withholding taxes on receipt of cross-border payments of dividends throughout Europe. However, European Court of Justice and European Free Trade Association Court decisions support a tax discrimination claim where EU or European Economic Area ("EEA") countries impose such withholding taxes on cross-border payments at rates higher than the withholding tax imposed on dividends paid in similar situations to resident investors.

The Board of the Company has therefore authorised the filing of protective claims, based on the EU principle of the freedom of movement of capital within the EU & EEA, against countries where it is believed that withholding taxes may have been unlawfully imposed by individual EU or EEA States on dividend payments to the Company. The Board's decision has been taken exclusively to protect the position of investors in the Company.

The nature of these claims is complex and subject to each jurisdiction's local statute of limitations and procedural requirements. Consequently, these claims may be subject to lengthy litigation, and at the current time there is no certainty whether all the protective claims will ultimately be successful and whether or how much withholding tax will ultimately be recovered in each of the jurisdictions.

17. Statement of Changes in Investments

A list for each sub-fund, specifying for each investment the total purchases and sales which occurred during the period under review, may be obtained free of charge from the Registered Office of the Company or from any of the companies registered as Distributors of the Company. It is possible to receive information about the full holdings of the sub-funds in which you invest, at any point in time during the period. This is available upon request, by contacting your usual Fidelity Representative.

18. Rates of Exchange

The USD exchange rates as at 31 October 2021 are noted below. For the Chinese Renminbi currency, please note that the offshore rate is applied. RMB is a colloquial reference to the Chinese Renminbi, which is also know internationally as the Chinese Yuan ('CNY'). Whilst the CNY is traded both onshore in China and offshore (primarily in Hong Kong SAR China), it is the same currency although currently traded at different rates. The offshore rate for trading CNY is generally referred to as 'CNH'. The CNH rate will be used when determining the value of the Shares of a fund as well as for hedging purposes.

Currency	Exchange rate	Currency	Exchange rate
Australian dollar (AUD)	1.33146928	New Zealand dollar (NZD)	1.39713587
Brazilian real (BRL)	5.62995	Nigerian naira (NGN)	455.125

	AEON E-ACC Shares (USD)	03/11/2021

On 22 November 2021 Fidelity Patrimoine was merged into Global Multi Asset Income Fund.

On 6 December 2021 Fidelity Active STrategy - UK Fund and Fidelity Active STrategy - US Fund have respectively merged into Fidelity Funds - UK Special Situations Fund and Fidelity Funds - Sustainable US Equity Fund.

EU Securities Financing Transactions Regulation

The Securities Financing Transactions Regulation (SFTR), which came into effect on the 13 January 2017, requires further transparency regarding the use of securities financing transactions.
The Company may use total return swaps or other financial derivative instruments with similar characteristics to meet the investment objective of the Company.
The Company used contracts for difference (CFD), total return swap (TRS) and securities lending for the period ended 31 October 2021.
The top 10 counterparties are disclosed in note 6 for the securities lending, in note 13 for TRS and in note 14 for CFD.
As at 31 October 2021, there was only collateral received from collateral issuers (governments and international institutions) for securities lending as is shown in note 6.

Assets engaged in securities financing transactions as at 31 October 2021

The assets engaged, expressed in absolute value and as a proportion of the net assets, by category of securities financing transactions as at 31 October 2021 amounted to:
The assets engaged in securities lending are disclosed in note 6.

For Hong Kong residents only

Cross Trades

The Manager and/or the Investment Manager may enter into trades for the account of a Sub-Fund with: (i) the accounts of other clients managed by the Manager, the Investment Manager or its affiliates; or (ii) their house accounts (i.e., accounts owned by the Manager, the Investment Manager or any of its connected persons over which it can exercise control and influence) ("cross-trades"). Such cross-trades will only be undertaken in accordance with the relevant requirements promulgated by the relevant authorities.

For the period ended 31 October 2021, The Company did not enter into any cross trade.

Other Information

Over the period, the primary A-EUR class of the Euro STOXX 50® Fund returned 8.42% in net euro terms, while the EURO STOXX 50 (Net Total Return) Index returned 8.14%.
